Think for yourself, act for others

Dear Parent/Carer,

Your son/daughter will be receiving their report this week. Please contact Ms Warbrick if they do not bring this report home. (swr@cheney.oxon.sch.uk)

We are also very excited to let you know that you can now see their report on our new Parent Portal by [logging in](#), clicking on your son/daughter's student profile, and then 'reports' on the left hand side. If you need your log on details re-sent, please email communications@cheney.oxon.sch.uk.

We very much hope this report will provide you with a useful snapshot to discuss at home.

Because reports are now being produced in our new Management Information System, you will notice that they have a slightly different layout. However, the information we are sharing is still the same.

The one big difference with the new reports is that the colour coding for minimum target grades is slightly different - the new colour key is below:

Significantly Below Target
Below Target
On Target
Above Target

Additionally, Learner Characteristics definitions are no longer printed on the back of the report. They are on our website - [here](#).

The report provides information on the following:

- a **minimum target grade** which is generated by Fisher Family Trust, an explanation of which can be found below.
- a **projected grade** generated by teachers based on all aspects of work.
- a teacher assessment of **learner characteristics**. It is very important to note that you should **not** see the number as a score or a level out of 5 but a code which links to the most appropriate definition of your child's learning characteristics. Therefore, if your child *does not* achieve a 4 or 5, it does not mean he/she is under-achieving. Descriptions are on the end of this letter, or you can find them on our website - [here](#).
- an attendance summary.
- a record of number of Cheney attributes (achievement points) and Incidents (negative events).

How can you support your child in their learning?

- discuss this report with them.
- discuss the support they need during the final few weeks of school.
- support them with healthy routines including exercise, sleep, healthy eating and relaxation.
- talk about their examination timetable and the help they will need on each day.
- ensure your child has a quiet place to study away from things such as gaming, social media and other distractions.

If you have any questions about the report, or the information it provides, please contact your child's form tutor or the sixth form office - we will be happy to help.

Yours sincerely

What is an FFT20 Target?

Fischer Family Trust (FFT) is an organisation which provides schools with data relating to examination performance including estimates of GCE grades based on their prior attainment. (For example, attainment at GCSE). FFT estimates are widely used and similar to the measures used by OFSTED. FFT provide estimates with varying degrees of challenge, and we use FFT 20 as the basis of our Key Stage 5 targets; these use the level of progress seen in the best 20% of schools to calculate estimates.

The target is statistically generated and is not specific to your child but it does give a statistical indicator of what good progress should look like from the end of Year 11 to the end of Year 13. If we consider a student's FFT20 score to be too low, we would increase it – however we do not want to lower aspirations so would not lower the target grade.

Your child's report is colour coded to show if we think they are making sufficient progress to achieve this target. See above for colour key.
